	by personnel wearing black-bordered blue epaulets. The cantomment at the edge of the woods was guarded by sentries wearing black-bordered blue epaulets. There was no vehicular traffic. Four tank trucks, 6 van-like trucks and 16 trucks were counted in the wooden garages.	5X1A
	Comment. Deutsch Wagram airfield is occupied by a Soviet fighter regiment. The 12 to 24 Pe-2s which have been observed at the field since March 1953 were previously believed to belong to a bomber regiment transferred from Aspern in March 1953. Observations which have been made at all bomber airfields in Soviet-occupied Austria during the last months along with the information that no Pe-2s were observed at Deutsch Wagram airfield may indicate that the bomber units have left Austria and that the old Pe-2s previously stationed at various airfields in Austria are being slowly distributed, probably also to Satellite units.	25X1A
2.	Comment. The shape of the antenna observed is reported for the first time. Therefore, the antenna type cannot be determined. See sketch attached	•
